

Rapid Access Addiction Medicine (RAAM) Clinics

COVID-19 Update: Call in advance to check clinic hours; some clinics may have reduced availability

A rapid access addiction medicine (RAAM) clinic is a low-barrier, walk-in model that patients can attend to get help for a substance use disorder without an appointment or formal referral.

RAAM clinics provide time-limited medical addiction care including pharmacotherapy, brief counseling, and referrals to community services. Individuals need just show up during clinic hours with an Ontario Health Card.
